

## Supplier Selection with Sustainability Insights

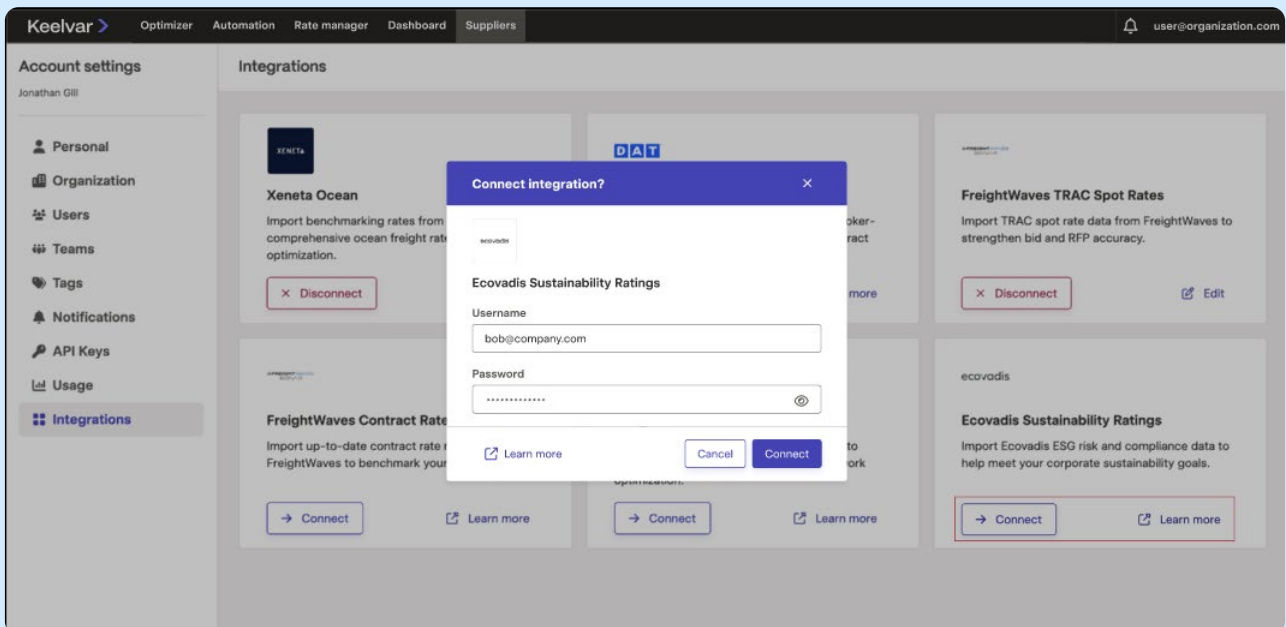

### Keelvar in partnership with **ecovadis**

Keelvar's integration with EcoVadis enriches supplier profiles with verified sustainability data, empowering procurement teams to make environmentally conscious sourcing decisions. This partnership allows customers to access EcoVadis sustainability ratings directly within Keelvar, streamlining supplier evaluations while aligning procurement activities with corporate ESG goals.

## Sustainability meets intelligent sourcing

Procurement professionals face increasing pressure to meet sustainability targets without sacrificing efficiency. Keelvar's integration with EcoVadis addresses this challenge by enabling you to:

- **Evaluate supplier sustainability:** Access validated scores across environmental, labor & human rights, ethics, and sustainable procurement criteria.
- **Initiate and track assessments:** Request new assessments and monitor supplier progress directly within supplier profiles.
- **Reduce manual effort:** Automate data imports to ensure supplier profiles are always up to date.
- **Mitigate procurement risks:** Leverage verified data to make informed supplier selections and minimize compliance risks.
