SAP Partner Solution: Keelvar Sourcing Optimizer

Keelvar Sourcing Optimizer directly integrates with and augments SAP Ariba.It allows customers to easily add sourcing optimization and automation to their large or complex spends.

Seamlessly integrate Keelvar Sourcing Optimizer with SAP Ariba

Keelvar >

Meet challenges including:

- Difficulty using Excel to handle strategic, complex, high value spend categories (e.g transport, packaging, MRO)
- Basic e-Sourcing tools are not capable of optimizing customer's events
- Creating and managing events using spreadsheets and legacy tools is very time consuming, and event size is limited
- A need for more visibility and control over procurement processes

Impact
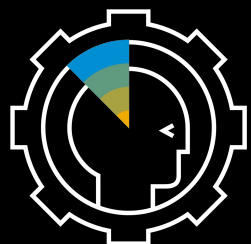

| Average cost savings per event | **5-20%** |
| Average reduction in time savings versus Excel or email | **70%** |

Customers ☹ ☹ 😐 ☺ 😃

Coca-Cola, Mars, CJ Logistics, Carlsberg, Siemens, Novartis.

Video

Watch how Ariba integration allows customers to harness the power of two best-in-class sourcing solutions.

Keelvar Sourcing Optimizer Connector for SAP Ariba

Works with

SAP Ariba: run, analyze and award complex or large events in Keelvar Sourcing Optimizer, then send awarded supplier data back to SAP Ariba Contracts.

Features & benefits

Customers can use Keelvar alongside SAP Ariba to handle sourcing events where optimization can deliver a higher ROI and find new opportunities for savings and risk reduction through more competitive bidding and awarding.

- Handle large and complex spend events directly from SAP Ariba
- Manage all event and supplier data in one single location

The connector provides the power of Keelvar Sourcing Optimizer to run, analyse and award large and complex spend events
